IMPORTANT: THIS IS A LEGAL DOCUMENT

Please read and understand this document before signing. If you have any questions please consult an attorney.

FRONT ROYAL OUTDOORS would like to inform our guests that a river trip is not risk free. The same elements that contribute to the unique character and fun of a river trip, such as "shooting the rapids" or "living out-of-doors" can cause loss or damage to equipment, injury, or in extreme cases, permanent trauma or death. We do not want to heighten or reduce your enthusiasm for the experience, but we do want you to know in advance what to expect, and to be informed of some of the possible risks. We ask that you read this document, understand this document, sign it, and return it to our office.

ACKNOWLEDGMENT OF RISK

There are many rapids to be experienced on the trip. Passengers can be jolted, bounced, and otherwise shaken about during rides through some of these rapids. It is possible that passengers could be injured if they hit equipment, storage containers, other passengers or other objects. Equipment may break or malfunction causing loss of property or injury.

Watercraft may turn over in the rapids or in calm water causing: prolonged exposure to cold water leading to hypothermia, injury, or death. Injuries may be sustained while in the water such as from items floating in the river or in the river bed. Drowning is always a possibility whenever you are around water. Participants may be washed or thrown overboard in the rapids or in calm water, which may result in any of the above injuries or death. You may spend time upside down in your watercraft and you will get water in your nose. When you are upside down you may hit objects with your head and body that are under the water. Hitting underwater objects may cause injury or death.

Accidents may occur getting into or out of a watercraft. Watercraft may become slippery when wet. You might slip and fall when entering any watercraft, in which case you might damage or lose equipment you are carrying (such as cameras, glasses or other personal items). You might injure yourself by falling against some object in or around the watercraft, or on the shore. Watercraft get hot in the sun, you might bum yourself when you climb aboard or while using the watercraft. Watercraft may drift a distance from the shoreline when you are trying to get in or out causing you to fall in the river, or drop equipment into the river. You may be required to get out of the watercraft to move it to deeper water in which case you may injure your back, over-stress your heart, or otherwise injure yourself in doing so. You may need to tie your watercraft when you pull into shore. The watercraft may float downstream and the rope may pull through your hand causing "rope bums" or abrasions. You might trip over rocks, stumps or other debris on the shore while trying to hold the watercraft or tie it to a suitable object on shore.

As a watercraft operator you will be totally responsible for your own movement and safety while on the river. This requires a high level of physical exertion as well as emotional and mental stability. You will be primarily responsible for your own rescues. FRONT ROYAL OUTDOORS will only be available as a backup rescue due to the inherent nature of the sport.

Accidents may occur during off-river travel. Trails are often steep, rocky, and slippery. Hikes involve crossing streams, where footing may be awkward. Participants can slip or fall during a hike, resulting in injury. Foot protection in the form of shoes or sandals is required for all river trips. Foot injuries are the most common injury, and may still occur regardless of footwear being worn. Poisonous or dangerous plants, insects, or animals can be found with harmful effects to some guests. Exposure to the natural elements can be uncomfortable or harmful. Heat-sunburn, dehydration, heat stroke, heat cramps, wind, rain, lightning, using portable toilet facilities, eating meals out-of-doors, being in the open for the extended length of the trip can be uncomfortable or cause injury.

It is also possible that some participants would suffer mental anguish or trauma from the experience or their injuries.

This is not an exclusive or exhaustive list of the possible injuries, trauma or accidents that may occur while on a river trip. Most of these injuries are rare and you are not likely to encounter them, however they have occurred and you need to know about them and other possible injuries not mentioned above. These injuries occur more often when the participants are using drugs or alcohol or not physically able to undertake the activity.

I certify that my family, including minor children and myself are fully capable of participating in the river trip. I state that I have read and understand the above statement on some of the possible risks of this activity. Therefore, I assume full responsibility for myself, my family, including minor children, for bodily injury, death and loss of personal property and any expenses as a result of my negligence, negligence of my family, or negligence of FRONT ROYAL OUTDOORS. I also understand that FRONT ROYAL OUTDOORS reserves the right to refuse any person it judges to be incapable of meeting the rigors and requirements of participating in the river trip. I am in good physical condition and able to undertake this activity.
